

AB-COCKS

Reliable and fail-proof shut off

» AB-COCKS

AB-cocks are simple and extremely sturdy shut-off valves designed with the very specific needs of measuring technology in mind. Their unfailing operation and economic efficiency have earned them millions of practical applications worldwide.

» PRODUCT ADVANTAGES

- » A generously sized sealing face ensures that the bore is reliably sealed and that measuring errors on the outside are prevented
- » Manual operation supported in throttle position
- » Simple design (just one moving part) for high-level operational safety
- » The sealing bush - the valve's only wearing part - can be replaced within a few minutes without having to remove the AB cock from the pipeline.
- » Special designs are available for pressure gauges, indicators and liquid level gauges

» PRODUCT DETAILS

PN	40/160/250
Design	ABM, MABA, ABI, ABZ etc.
Material	Brass, steel and stainless steel
Temperature	-200 °C to +400 °C
Variants	Various link-up types: Ermeto, Maihak, Burmeister, etc., Sealing bushes available in PTFE, KAF, KOR-AF
